**Grimm Aerosol Technik GmbH**

The company Grimm Aerosol Technik GmbH & Co. KG has been established more than 20 years ago by Dipl.-Ing. Hans-Jürgen Grimm in Bavaria/Germany.

Nowadays Grimm Aerosol Technik is one of the worldwide leading companies in the field of particle measurement due to their innovative developments and manufacturing.

The company offers a product range of complete solutions for emission and immission monitoring, IAQ/workplace safety, nano particle counter and sizer, filter testing and aerosol generators.

The products and technologies are used in different applications, such as environmental monitoring, indoor air quality, engine emission testing, pharmaceutical, epidemiological studies and quality control.
